

STEEL PLATE BEAM GUARD

[Back to Approved Lists](#)

YEAR 2008

WisDOT Approved Shipments

Prequalified Vendor Inventory Lists

ONLY WisDOT inspected and prequalified inventories of Steel Plate Beam Guard products are allowed for use on WisDOT projects.

To qualify a shipment must be inspected and tested at the vendor distribution yard. Samples from each shipment are tested for compliance to galvanizing coating thickness requirements. All heat numbers, coating lots, sizes, and types of rail in each shipment are tested. Certified Reports of Test and Analysis are provided for each shipment. The WisDOT verifies the documents, confirms and documents the heat number, type, size and number of rails for each heat and coating lot in the shipment. The certification documents for each shipment are identified by a unique invoice or bill of lading number.
